

RESTRICTED USE PESTICIDE

(GROUND AND SURFACE WATER CONCERNS)

FOR RETAIL SALE TO AND USE ONLY BY CERTIFIED APPLICATORS OR PERSONS UNDER THEIR DIRECT SUPERVISION, AND ONLY FOR THOSE USES COVERED BY THE CERTIFIED APPLICATOR'S CERTIFICATION.

THIS PRODUCT IS A RESTRICTED USE HERBICIDE DUE TO GROUND AND SURFACE WATER CONCERNS. USERS MUST READ AND FOLLOW ALL PRECAUTIONARY STATEMENTS AND INSTRUCTIONS FOR USE IN ORDER TO MINIMIZE POTENTIAL FOR ATRAZINE TO REACH GROUND AND SURFACE WATER.

**FOR DISTRIBUTION AND USE ONLY
WITHIN THE STATES OF OREGON,
IDAHO, AND WASHINGTON**

CHEAT STOP™ 90WDG

SECTION 24(C) SPECIAL LOCAL NEED REGISTRATION

Preemergence Herbicide For Cheatgrass
(Downy Brome) Control in Deep Furrow
Seeded Winter Wheat.

ADD

ACTIVE INGREDIENTS:

Atrazine (2-chloro-4-ethylamino-
6-isopropylamino-s-triazine) 85.5%
Related Compounds 4.5%

INERT INGREDIENTS 10.0%
TOTAL 100.0%

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

EPA SLN NO. ID-880009

EPA SLN NO. OR-880014

EPA SLN NO. WA-880019

EPA EST NO. 34704-NB-2 (Lot No. begins 08)

NET WEIGHT 10 LBS. (4.53KG)

07P95

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger or, if available, by administering syrup of ipecac. Do not induce vomiting or give anything by mouth to an unconscious person.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.

IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Harmful if swallowed, absorbed through skin, or inhaled. Avoid breathing dust. Causes eye irritation. Avoid contact with eyes, skin, or clothing. Avoid application directly to animals.

PERSONAL PROTECTIVE EQUIPMENT:

Applicators and other handlers (other than mixers and loaders) must wear: Long-sleeved shirt and long pants, waterproof gloves, chemical-resistant footwear plus socks.

Mixers and loaders must wear: Long-sleeved shirt and long pants, waterproof gloves, chemical-resistant footwear plus socks, protective eyewear.

Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

Engineering controls statements:

When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets with requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240 (d) (4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

USER SAFETY RECOMMENDATIONS

Users should:

Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

Do not apply directly to lakes, streams, or ponds. Use with care when applying in areas adjacent to any body of water. Do not apply when weather conditions favor drift from target areas. Do not contaminate water when disposing of equipment washwaters.

Atrazine leaches readily and accepted label rates have been found to result in contamination of water supplies by way of groundwater. Therefore, users are advised to avoid use of Atrazine in well drained soils, particularly in areas having high groundwater tables.

Groundwater contamination may be reduced by diking and flooring of permanent liquid bulk storage sites with an impermeable material.

This product may not be mixed/loaded, or used within 50 feet of all wells including abandoned wells, drainage wells, and sink holes.

continued

PROPOSED LABEL

CHEAT STOP 9WDG *continued*

This product may not be mixed or loaded within 50 feet of intermittent streams and rivers, natural or impounded lakes and reservoirs. This product may not be applied aerially or by ground within 66 feet of the point where field surface water runoff enters perennial or intermittent streams and rivers or within 200 ft. around natural or impounded lakes and reservoirs. If this product is applied to highly erodible land, the 66 foot buffer or set-back from run-off points must be planted to crop or seeded with grass or other suitable crop.

Where there are state/local requirements regarding atrazine use (including lower maximum rates and/or higher set-backs) which are different from the label, the more restrictive/protective requirements apply.

This pesticide is toxic to aquatic invertebrates. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the high water mark. Runoff and drift from treated areas may be hazardous to aquatic organisms in neighboring areas.

Avoid using where adjacent desirable trees, shrubs, or plants might be injured.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soils, or water, is: Coveralls, waterproof gloves, chemical-resistant footwear plus socks.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal. Do not store under conditions which might adversely affect the container or its ability to function properly. Such conditions include, but are not limited to, positioning of the container in storage, storage temperature, potential for crushing or damage due to stacking, and penetration of moisture.

STORAGE: Store in safe manner. Store in original container only. Store in cool, dry place. Reduce stacking height where local conditions, such as humidity or pallet overhang, can affect package strength. Personnel should use clothing and equipment consistent with good pesticide handling.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

APPLICATION PROCEDURES

Ground Application

For uniform distribution use fan-type nozzles. Screens in nozzles and in suction and in-line strainers should be no finer than 50-mesh. Use a pump with capacity to (1) maintain 35-40 psi at the nozzles, and (2) provide sufficient agitation in the tank to keep the mixture in suspension.

Aerial Application

Use broadcast application method and water carrier. Avoid applications under conditions where uniform coverage cannot be obtained or where excessive spray drift may occur. Avoid application directly to animals.

Application in Water

Mixing procedure: (1) Be sure sprayer is clean and not contaminated with other materials. (2) Fill tank half to two-thirds full with clean water. (3) Start agitation. (4) Pour this product directly from bag into tank. Let it wet and settle into the water. (5) Finish filling tank with water. Continue agitation during mixing and application.

Application in Liquid Fertilizer

Nitrogen solution or complete liquid fertilizer may replace all or part of the water as a carrier. Perform a compatibility test with liquid fertilizer solution and CHEAT STOP 9WDG. Use a compatibility agent approved for crop use, as needed.

Do not apply this product through any type of irrigation system.

WINTER WHEAT

This product should be used with great care because it is, at best, only semi-selective in wheat. Successful treatment is dependent on exacting cultural practices. Do not use CHEAT STOP 9WDG without having previously tested on a small scale whether cultural practices required to give crop tolerance can be successfully performed. No application can be made without the approval of a certified CLEAN CROP dealer, and completion of the CHEAT STOP 9WDG training program.

Two methods of application have been developed by university researchers:

METHOD I: Broadcast Preemergence:

The entire field may be sprayed with CHEAT STOP 9WDG prior to planting. Follow "Cultural Practices" and "Precautions" below.

METHOD II: No Overlap Preemergence:

To improve crop safety and gain operational efficiency, CHEAT STOP 9WDG may be applied as a No Overlap treatment at planting. Mount standard, tapered flat fan (not even fan) spray nozzles on the drill ahead of the planter. The spray pattern should cover a band between wheat rows, barely reaching the center of the planted row, and not overlapping spray from the next nozzle. This reduces the amount of CHEAT STOP 9WDG applied over the seed row. Follow "Cultural Practices" and "Precautions" below.

RATE: For both methods of applications apply 7 to 9 oz. of CHEAT STOP 9WDG per sprayed acre in sufficient water and/or liquid fertilizer solution for even distribution. Use the lower rate on coarse textured soils.

CULTURAL PRACTICES:

1. Planting must be done using a deep furrow drill equipped with eagle beaks or shovels to move soil from the planted row to row middle (inversion method).
2. The planted seed furrow must be immediately packed with a packer wheel to insure that treated soil does not fill back into furrow.
3. Best weed control is obtained when seeding is done within 7 days of CHEAT STOP 9WDG application.
4. Best results have been obtained when crop is seeded to moisture.
5. Wheat will be damaged unless treated soil is properly thrown from planted row at seeding.

PRECAUTIONS:

1. Movement of treated soil by any means can result in crop injury. Use good management practices to minimize wind blown or water borne movement. When inverting soil from planted rows to middles, make sure that equipment setup and travel speed is such that no treated soil is thrown from one furrow to the next.
2. Do not plant to another crop within 12 months of application.
3. Do not use on soils with less than 1% organic matter.
4. Do not use on sands, loamy sands, or fine sandy loams.
5. Do not graze or feed forage from treated crop to livestock.
6. Poor weed control can result if the weeds germinate from deep moisture while the soil surface remains dry.

NOTICE

PLATTE WARRANTS THAT THIS PRODUCT CONFORMS TO THE CHEMICAL DESCRIPTION ON THE LABEL THEREOF AND IS REASONABLY FIT FOR THE PURPOSES STATED ON SUCH LABEL ONLY WHEN USED IN ACCORDANCE WITH THE DIRECTIONS UNDER NORMAL USE CONDITIONS. IT IS IMPOSSIBLE TO ELIMINATE ALL RISKS INHERENTLY ASSOCIATED WITH THE USE OF THIS PRODUCT. CROP INJURY, INEFFECTIVENESS, OR OTHER UNINTENDED CONSEQUENCES MAY RESULT BECAUSE OF SUCH FACTORS AS WEATHER CONDITIONS, PRESENCE OF OTHER MATERIALS, OR THE MANNER OF USE OR APPLICATION, ALL OF WHICH ARE BEYOND THE CONTROL OF PLATTE. IN NO CASE SHALL PLATTE BE LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. ALL SUCH RISKS SHALL BE ASSUMED BY THE BUYER. EXCEPT AS EXPRESSLY PROVIDED HEREIN, PLATTE MAKES NO WARRANTIES, GUARANTEES, OR REPRESENTATIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED, OR BY USAGE OF TRADE, STATUTORY, OR OTHERWISE, WITH REGARD TO THE PRODUCT SOLD, INCLUDING, BUT NOT LIMITED TO MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, USE OR ELIGIBILITY OF THE PRODUCT FOR ANY PARTICULAR TRADE USAGE.
